

BASELINE ASSESSMENT

GRAMA VOLUNTEER PROGRAMME ***FIELD OPERATIONS AGENCY***

CONFIDENTIAL

Note:

- Overall assessment is conducted on a sample set representing the population but the finding in the presentation ahead may or may not be completely like the current situation/scenario
- The information presented is completely taken from the respondents and any other independent fact check operations are not held for this assessment and hence the use of this data is to be limited for internal purpose only

OBJECTIVE

Train, Coordinate and Monitor Grama Volunteers and Village Secretariats in order to improve service delivery of the government programmes at the grassroots level

Under this programme, Grama Volunteers (mapped to ~50HH) will be grassroots functionaries of the government, spread across the state

4.9Cr	1.48Cr	13	661	3482	~13K	~15K	~2.6L
Total Population	Households	Districts	Mandals	Wards	Panchayats	Village/Ward Secretariats	Grama Volunteers

OBJECTIVE

To assess the current functioning of the system by identifying the gaps in various aspects and by checking the uniformity of the processes across the state

METHODOLOGY

A sample set representing all the concerned stakeholders at different levels across the state is considered for the assessment

Sample Characteristics

1. Gender and age
2. Occupation of father/husband
3. Social category
4. Educational qualification & Experience
5. Familiarization with technology

Mapping & Training

1. Mapping of GV's
2. No. of training sessions
3. Commute to training
4. Duration of training
5. Trainers
6. Batch size
7. Training mode
8. Feedback on training
9. Scope of improvement

Engagement

1. Communication channel
2. Communication agent
3. Data digitization
4. Commute to work

Monitoring

1. Attendance tracking mode & Frequency of attendance
2. Attrition
3. Reasons for attrition

Voice of GV's/Citizens

1. Grievances reported by citizens
2. Problems faced by GV's
3. Threats reported by GV's

CONFIDENTIAL

STANDARD OPERATING PROCEDURES

The hiring of Mandal/Ward Level Operations Monitoring Personnel

1. Introduction

1.1 Project Overview

1.2 FOA Team structure

1.3 Roles & Responsibilities of an MLO

2. Project Requirement

3. Hiring Process

3.1 Steps of hiring process

3.2 Sourcing of profiles

3.3 Screening the profiles

3.3 Interview Process

3.4 On-boarding process

4. Contingency Plan

5. Entire Process in Nutshell

1. Introduction

1.1 Project Overview

The Government of Andhra Pradesh (GoAP) is committed to revamp service delivery system in the State with an aim to *improve the living standards of people* through the concept of “Navarathnalu” as a core theme of governance.

In order to operationalize Navarathnalu, GoAP intends to “*deploy volunteers for delivering Government services at the door-step of all eligible households*”.

To achieve the above objective, GoAP has envisioned to deploy a volunteer for every 50-100 Households (HHs) in both urban and rural areas (to be known as the Grama/Ward Volunteers (GV/WVs)) responsible for door-to-door delivery of services. They will also identify the problems being faced by citizens in their jurisdiction, and the same will be brought to the notice of government officials to get them resolved.

This model is conceptualized to ensure timely & transparent services and eliminate corruption at all levels of administration.

Progress on the project:

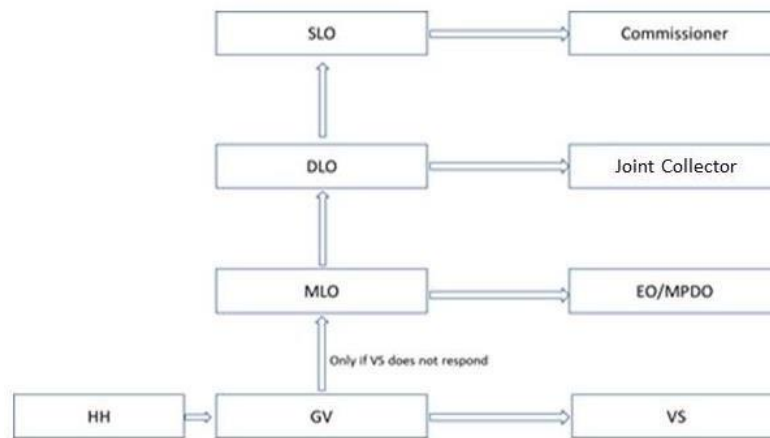

As on date, GoAP has appointed a total of 2.4 lakh GV/WVs and mapped them to 50 households.

Since 15th August 2019, GV/WVs have conducted a Baseline Survey across the state, Identified and verified beneficiaries for Rythu Bharosa, Amma Vodi, Vahana Mithra, Pensions and Household Pattas schemes. Also, they have conducted an extensive data collection exercise at HH level to identify/add/modify the beneficiaries and ease the execution of upcoming schemes as part of Navasakam.

1.2 FOA Team Structure

The proposed structure for implementing the above requirements of the GoAP is shown in the below diagram. The team is headed by a team of State Level Officers (SLO), under them are the District Level Officers (DLO). Mandal/Municipal Level Officer is the person in charge of one Mandal/Municipality and is the first point of contact for the GV and they report to the DLOs.

The DLO delegates tasks to the MLO who then delegates the same to the GVs. It becomes mandatory for an MLO to be on the field on a daily basis to handhold GVs and train them on their deliverables, monitor them, track progress of their work, get reviews on them etc.

1.3 Roles & Responsibilities of an MLO

All the tasks of MLO can be categorized into 4 sections and his/her key deliverables are mentioned below:

1. Training the GVs:

- The MLO should be on the field on a daily basis. He/she shall handhold the GVs at every point while assigning a new task, brief them on how to deliver the assigned tasks.
- Training the GVs form an important element in the execution of the entire project. An MLO should conduct at least 2 training sessions to GVs for every 6 days.

2. Engagement:

- It is the duty of the MLO to maintain cordial relations with the corresponding Government officials i.e. EO/MPDO, staff of VS and coordinate with them on a regular basis.
- Delegate tasks to the GVs as per the need of the GoAP as and when new schemes/services are launched.
- Conduct review meetings with the GV.

3. Feedback collection:

- Conduct review meetings with the VS employees (for collecting feedback of the GV)
- Undertake social listening to understand the functioning of the system/initiative, work of the GV etc.
- Feedback from the HH is also collected and collated to understand the work efficiency of the GV.

4. Reporting:

- A report on social listening to be shared with the DLO on a weekly basis.
- Daily report on Volunteers Attendance, Respective tasks.
- Report on the reviews of each GV, etc to be shared on a regular basis (monthly/weekly)
- Daily status update should be sent to their respective DLO.

Sample Daily Report Format:

Daily Status Report for an MLO	
Date	xx/xx/xxxx
MLO ID	MMAA01
Village code	VV000AA
Code for the VS visited	VS000AA
Feedback of the GV from VS	Good/Average/Bad
No. of social listening forms filled	00
Feedback of the GV from social listening	Good/Average/Bad
No. of HH visited	00
Feedback of the GV	Good/Average/Bad
Any issues, please specify	

- He/she also has to cover 20 VS visits in a brief span of 20 days and send the required reports to the corresponding DLOs on a weekly, fortnightly and monthly basis depending on the need of the project.

In order to perform his duties, he will have to undergo training from Master Trainers (MTs), and subsequent training from DLOs on a regular basis (i.e. 3 times a month).

2. Project Requirement

The project requires 806 Mandal/Municipality Level Officers and the rural-urban split for the same is mentioned in the below table:

No. of MLOs to be selected	806 (642 Rural + 164 Urban)
No. of interview locations	13 (one per District)
No. of interview days	4
No. of candidates expected for interview per day in a District	120 (approx.)
No. of interviews to be scheduled per day in a District	70 (approx.)
No. of candidates to be interviewed in a day	70*13 = 910 (approx. from all Districts)
Total number of candidates interviewed for 4 days	910*4 = 3,640 (approx. from all Districts)

Given below is the district-wise cumulative requirement

Resources (MLO's) Required				
District	Resources required for Mandal Level Unit	Resources required for Municipal Level Unit	Total Resources required per District	Candidates to be Hired per Day (Total-4 days)
East Godavari	63	15	78	20
West Godavari	48	10	58	15
Guntur	56	21	77	19
Krishna	50	17	67	17
Chittoor	64	13	77	19
Anantapur	62	12	74	18
Prakasam	44	06	50	13
Kurnool	50	14	64	16
Visakhapatnam	37	26	63	16
Srikakulam	39	03	42	10
SPS Nellore	55	11	66	17
YSR Kadapa	40	10	50	12
Vizianagaram	34	06	40	10
Total	642	164	806	202 (approx.)

3. Hiring Process

Our primary focus is to maximize the utility of the existing resources. A 4-step hiring process is developed to ensure hiring of 1,006 MLOs in a 21-day period.

3.1 Steps of hiring process

The process comprises of sourcing, screening, interviewing and on-boarding of the candidate.

Hiring portal is developed to accept job applications from candidates, screen potential candidates based on the set criteria, evaluate the shortlisted candidates on GD and PI process, get daily update on the status of the hiring process, number of positions filled etc.

3.2 Sourcing of profiles

To hire 806 MLOs in 21 day period, we source profiles from three platforms:

- **Existing Database:** This sourcing is planned from **Day 1- Day 12** which involves making a touchbase to all the candidates from the existing database via IVRS, SMS and personal calls.

Step 1: An IVR is sent to all the candidates to capture their interest for the post of an MLO

Step 2: An SMS is sent to those candidates who respond positively to the IVR sending them a link to register for further process

Step 3: Remainder SMS/ Whatsapp message is sent to those candidates who responded positively to the IVR but forgot to fill the application form

Step 4: Personal calls are made to those candidates who responded positively to the IVR but forgot to fill the application form

Notes:

The process of sending an IVR is repeated for 5 days (i.e. from Day 1- Day 5 if there is low response rate)

Priority 1: Status of IVRS as not responded, switched off, not reachable

Priority 2: Candidates who rejected the call after listening to IVR for 15 secs

- **Third-Party Agency (TPA):** This sourcing is planned from **Day 0- Day 12** which involves communicating the project requirement to the finalized vendor/third-party agency, sourcing profiles from them. The objective is to maintain a minimum of 6 profiles per mandal/municipality from the TPA within the stipulated time frame. Assuming that the TPA will upload a minimum of 500 profiles each day, for a span of 12 days

Timeline	
Day 1 - Day 12	Sourcing
Day 2-Day 12	Gaps to be identified and Filling the gaps

3.3 Profile Screening

The entire hiring process requires a stringent screening mechanism to identify potential candidates for the post of an MLO keeping in view, the time limit for hiring and on-boarding of 1,006 MLOs. The entire process of screening the profiles, finalizing of interview locations, communication of GD/PI date, time and location to the shortlisted candidates and training the CTMs on district-level MLO recruitment module is spanned from **Day 1- Day 12**

Criteria for screening the profiles

The candidates who vested their interest by registering through the online link are screened through the following criteria:

- Candidate must hold a UG degree from any recognized university
- Candidate must have hands-on experience with smartphone
- Candidate must have access to a two-wheeler and have a valid driving license
- Candidate must be fluent in Telugu and have a basic working knowledge of English language
- Candidate shall not be employed in any Government services (as Village secretariat employee/as a GV)
- Candidate should be principal resident of mandal/municipality
- Candidate should not be convicted in a court of law

Note: In case of poor response/quality of candidates, candidates from adjacent mandal are given an opportunity.

Shortlisting the candidates

All the interested candidate profiles are screened based on the above-mentioned criteria. Priority will be given to candidates with good academic scores, work experience, access to laptop, PG degree.

Shortlisted candidates will be communicated on the GD/PI process i.e. GD topic along with the date, time and location of the interview via email, SMS and IVR

Finalization of interview locations

The date of GD/PI process along with location, date and time should be finalized well in advance and before the start of the hiring process.

Training of CTMs on MLO Recruitment

Before deploying the field resources to their assigned districts, they are educated on the entire process and procedure to be followed on **Day 12**.

3.4 Interview Process

Pre-Process Checklist

- Hiring Portal to be developed and tested by coordinating and communicating the necessary changes to the tech team (to be done before the hiring process i.e. **Day-0**)
- Finalizing the mapping of interview panels to the respective Mandals and Districts (**Day 0**)
- SLOs/Leads to brief DLOs on MLO hiring on **Day 0**
- Interview Venue (Banquet halls along with the refreshments and rooms for GD & PI), date and time to be finalized before the start of the interview process i.e. on **Day 8**

Checklist for CTM/DLO before the interview day

- Ensure banquet hall is arranged appropriately as per the requirements put forward by the coordinating team/DLOs
- Ensure GD/PI rooms are fully equipped as per requirements
- Ensure each DLO has a separate room for GD/PI
- Ensure refreshments are ready before the start of the process
- Ensure calls to at least 6 candidates from each mandal to be made by the DLO
- Ensure reminder through IVRS, SMS and email is sent by the central team
- Ensure candidates from the nearby mandal to the interview location are given morning slots (10-12 am)

GD-PI Process

- Mapped DLOs to source volunteers (2 per DLO) between **Day 8 - Day 12**
- Travel and accommodation arrangements for the DLOs to be done on **Day 9- Day 11**
- Interview date, time-slot and location along with the GD topic to be communicated to the shortlisted candidates through email and SMS after the screening process between **Day 10 and Day 15**
- Teams to get deployed in Krishna District on **Day 12**
- Pilot for the interview process is scheduled for Krishna District on **Day 13**
- Applicant turnout, any possible issues faced by the DLOs to be discussed on **Day 14**
- Teams travel to their respective districts on **Day 14**
- Teams to conduct the GD/PI process in their mapped districts from **Day 16- Day 20** (all the 13 districts)
- Induction and Onboarding of selected candidates along with the verification of their documents (**Day-21**)

- Waitlisted candidates to be selected if any selected candidate is not interested in working (Day-21)

Group Discussion Process

Agenda

The agenda of conducting a GD is to test the communication & presentation skills of the MLOs because he has to train and handhold the GVs, maintain cordial relations with the external stakeholders. Also, check the team management skills of an MLO and how he drives the discussion.

GD topic

- Door-step delivery of government services - Advantages and Disadvantages
- Farm loan waiver vs Rythu Bharosa
- One day training module for volunteers

GD Format

It is a 20-minute assessment which comprises of

- a 6-minute ***pitch***: Every candidate will be given a chance to put forward his ideas/opinion about the topic in 30 seconds
- a 8-minute ***discussion***: Discussion on the topic should be on the lines of understanding the topic and should be driven towards a logical conclusion
- a 6-minute ***presentation***: One person from the group should present a summary of the entire discussion

General Etiquette to be followed during the GD

The DLO will communicate the GD topic followed by the GD Format to the group. MLOs are required to follow some basic rules:

- The candidate shall switch off their mobile during the GD process
- The candidate shall carry their own stationery to the interview location
- The candidate shall always raise hand before speaking
- The candidate shall avoid false starts, do not present wrong data or facts or deviate from the topic
- The candidate shall avoid shouting, pointing fingers, personal attacks on any of the group members. Any impolite behavior by the candidate will not be tolerated
- Do not initiate a one on one conversation with another member of the group

GD Evaluation Parameters

- ***Pitch***: Research done by the candidate, seriousness about the opportunity, communication/presentation skills, thought process of the candidate
- ***Discussion***: Logical thought process, how is the group thinking, how is the conversation being driven by the candidates (who is driving the conversation vs the quality of the conversation), people handling skills
- ***Presentation***: Listening and understanding skills of the initiator, leadership qualities of the candidates

Notes for DLO:

- The DLO can wish to ask a few candidates to summarize if he is not convinced by the response

GD Evaluation Matrix

	Good	Average	Bad
Pitch	1. Good in research 2. Good in communication	Average Research is done by the candidate but has 1. clarity of thought 2. communication skills	1. Bad in research 2. Bad in communication
Discussion	1. Initiator from the group with relevant points 2. Moderator from the group 3. Relevant points with good communication skills	1. Initiator from the group with irrelevant points	1. Vague points with no clarity
Presentation	Initiator	Initiator but did not summarize properly	Hesitated to take initiation

Personal Interview Process

Agenda

The agenda of this exercise is to understand if the candidate is capable of delegating tasks to the Grama Volunteer (GV), briefing them about the new schemes launched, clarifying the doubts raised, monitoring them and the process etc.

PI Evaluation Parameters

Basic skills of the candidate are measured during the PI assessment of the candidate which focuses on the following skills:

Parameters	What are we assessing the candidate on?
Technical skills	If the candidate can use a smartphone, knows how to drive because the job requires frequent travel (almost 90% of the time)
Communication Skills	If the candidate can speak Telugu fluently and efficiently, explain schemes/tasks to the GV and if he can clearly put forward his thoughts

People Management skills	Given the size of the team that an MLO has to handle, understanding his previous experience and scope of work is important
Behavioral skills	Liaising with govt. Officials, handling a huge number of GVs, we need to assess the candidate on his behavior and attitude
General Awareness	Minimum awareness of the government schemes and his region of work is important and needs to be assessed

PI Questions

Screening Questions:

1. Do you have a smartphone? (If yes, download a news app). Read a Telugu news article and summarize it in 2-3 sentences. Share the screenshot of the article at 9XXXXXXXXX or to the email address hiring.mlo@xxxxxxx.com

PI Questions:

1. Have you handled any team in your previous role? If yes, what was the team size and what was your role? (Basic)
2. Name top 3 issues of your mandal?
3. **Situation:** If you are given a target of distributing 5000 pamphlets in your Mandal in one day and you are also given 5 volunteers to execute this task.
What will be your strategy and how will you monitor the work of the volunteers to ensure 100% efficiency?
What will you do if any of your volunteers got caught/beaten by opposition party members?
4. Was your behavior typical in team setting as compared to your general behavior? (GD related)
5. Explain briefly about the Arogyasri Scheme/ Youth Employment/Fee Reimbursement implemented in the state of Andhra Pradesh.

PI Evaluation Matrix

Parameters	Evaluation		
	Good	Average	Bad
Technical skills	Can use a smartphone and willing to travel	Can use a smartphone but not willing to travel	Cannot use a smartphone

Communication Skills	Proficient in Telugu, Clarity of thought	Can speak in Telugu but cannot read/write, Clarity of thought	Not proficient in Telugu
People Management skills	Handled a team in the past	Can handle a team	Cannot handle a team
Behavioral skills	Confident & serious about the opportunity based on his preparation	Lack of preparation but confident	Over-confident and not serious about the opportunity based on his preparation
General Awareness	Accurate response	Attempt to answer the question	Did not answer the question

Interview Day Plan

- DLO with the help of hired volunteers will conduct the registration process for **15 Min** which starts at **10 AM** (10:00-10:15 AM) for the shortlisted candidates from 2 Mandal/ Municipality/Municipal Corporation scheduled for that slot
- DLO will verify the details of the candidate by referring the portal. Make the necessary corrections if needed
- DLO will collect the attested photocopy of Driving Licence of the shortlisted candidate and write the unique ID on the document
- DLO will brief the process of GD and PI. DLO will disclose the GD topic and communicate the rules of GD for **5 Min** (10:15 AM - 10:20 AM)

MLO Hiring Interview Day Plan			
Timeslots	Schedule	Task	Brief

10:00 AM - 12:00 PM (2 Mandals)	10:00 AM - 10:15 AM	Registration Process	DLO will check if the candidate has shortlisted for the GD & PI process in the portal for the 2 Mandal/Municipality/Municipal Corporation scheduled for that slot. DLO will confirm the details of the candidate. Correct the Mandal/Municipality/Municipal Corporation name if needed
1:00 PM -3:00 PM (2 Mandals)			
4:00 PM -6:00 PM (2 Mandals)	10:15 AM - 10:20 AM	GD & PI Process briefing	DLO will brief the process of GD and PI. DLO will explain the GD topic and communicate the rules of GD.
	10:20 AM - 10:40 AM	Group Discussion	DLO will conduct the GD for the candidates (Max 12) for 2 Mandal/Municipality/Municipal Corporation in this slot. This process includes 6 Min for Pitch, 8 Min for Discussion and 6 Min for Presentation
	10:40 AM - 10:45 AM	GD Evaluation	DLO will evaluate the candidates and shortlist for PI
	10:45 AM - 11:45 AM	Personal Interview	DLO will conduct PI for the candidates (Max 6 candidates for 2 Mandal/Municipalities/Municipal Corporation)
	11:45 AM - 12:00 PM	Personal Interview Evaluation	DLO will evaluate the candidates and selects 2 candidates (for 2 Mandal/Municipalities/Municipal Corporation)

Note: If any candidate has not attended in his scheduled timeslot, his GD & PI process will be conducted in the evening timeslot (4:00 PM - 6:00 PM)

- Candidates shortlisted for the GD & PI will be communicated about the Interview Venue, date & timeslot of his Mandal/Municipality/Municipal Corporation
- GD & PI process will be conducted at the District HQ for 5 days (including one day buffer)

3.5 On-boarding Process

Verification

All the relevant documents of the selected candidates shall be verified physically by the CTMs deployed while on-call verification of selected candidates shall be done centrally.

On-boarding & Induction

Post selection of the candidate, MLOs are on-boarded through induction where they are briefed on following

- Brief about the project (Gram volunteers, Gram Secretariat, completed and on-going campaigns)
- Roles and Responsibilities of MLOs (Training of GVs, Engagement and Feedback collection)
- A clear understanding of Government Schemes and policies
- Understanding of Hierarchy of the organization
- Reporting structure and formats (both online & offline)

Name:		Date:
District:		AC Name: Mandal:
S.No	Documents	Checklist
1	Curriculum vitae	
2	Tenth, Inter and Graduation degree from UGC/AICTE recognized institute(original copies with Xerox copies)	
3	Working experience (If any)	
4	Copy of Aadhar to be submitted (self-attested)	
5	Copy of a valid driving license to be submitted (self-attested)	
6	Bank details(Account number, IFSC Code)	

7	Two Passport size photos	
8	Pan card details	
9	Provident Fund details (If any)	
Signature of Authority		Signature of Candidate

Contingency plan

Sourcing process

Sourcing	Contingency	Possible solution
Existing Database	The low number of profiles in a particular District/Mandal in the existing Database	Prepare a list of Mandals/Municipalities with least number of profiles and focus in those Mandals/Municipalities through 3rd party agency and self-sourcing
	In case of poor responses to IVRS calls	Additional/ Extended call centers should be facilitated and personal calls should be made to eligible candidates from the newly sourced and existing database. (Number of tele-callers is dependent on time and target)
	In case of low turnout ratio of applications received after responding positively to the IVRS	Additional/ Extended call center should be facilitated and personal calls/remainder SMS/Whatsapp message should be made to the candidates responded positively to remind to fill the application form (Number of tele-callers is dependent on time and target)
Third-party	Profiles received, did not meet the required numbers	Collate a list of Mandal/Municipalities with the least number of applications and push the 3rd party agency to focus on those requirements

	If the 3rd party agency claimed applications are more than the number in the hiring portal database	Collect the unique IDs from the 3rd party agency, cross-check the number of 3rd party agency applications with the unique IDs in the database
	If any candidate has applied either through the direct link or through the existing database link and also applied through 3rd party agency link	Then the candidate will be considered as applied through the existing database link or through the direct link
Self-Sourcing	If the turn out ratio is low even after JD circulated in all social media platforms	The paid promotion will be done in such cases to reach more audience
	If the turnout ratio of required volunteers is low	Reach out to local volunteers through social media groups to source the required volunteers

Screening process

Screening	Contingencies	Possible solution
Existing Database 3rd party Self-sourcing	Low number of applications after the screening process	Prepare a list of Mandal/Municipalities with least number of candidates meeting the eligibility criteria after the screening process, source the applications for that respective Mandals/Municipalities and also consider the eligible candidates of neighboring Mandals/Municipalities

	In case the Hiring Portal backend Dashboard fails for the screening process	Profiles of a particular District will be sent to the respective DLO. DLO will shortlist the candidates as per the eligibility criteria in the excel sheet
--	---	--

Interview Process

Contingencies	Possible solution
In case the Hiring Portal backend Dashboard fails for the interview process	Shortlisted profiles for the interview process of a particular District will be sent to the respective DLO. DLO will evaluate the candidate in the excel sheet and share the updates to the central team
If the turnout ratio for the interview process is low	<p>The interviewed candidates will be asked for one referral each or at least to communicate through their network. Those who did not turn out on that day will be communicated to arrive on the following day.</p> <p>The people who will appear for Group Discussion will be interviewed if the turnout ratio is very low.</p> <p>Personal calls should be made by the DLO to eligible shortlisted candidates who didn't turn out for the interview process</p> <p>Communicate 3rd party agency to inform every eligible applicant to appear for the Interview.</p>
If the candidates appeared for the interview did not reach the expectations	<p>Source more number of applications for the respective Mandal/Municipality and also push the 3rd party agency for potential candidates.</p> <p>DLO should take a final call to select the waitlisted candidates if all the interviewed candidates are failed to meet the required criteria</p>

If one or more candidate scores the same mark	The candidates with previous job experience and a candidate with more UG percentage will be preferred, but the final decision will be taken by DLOs.
---	--

Onboarding Process

Contingencies	Possible solution
In case of rejection of an offer by candidates before/during on-boarding	The waiting list candidates are given an opportunity to join
In case the candidate fails to join the post-induction process	Candidate should serve 1 month notice period before leaving. In the meantime, respective DLO is responsible to find eligible candidates either from the waiting list or through any other source.

Entire Process in a nutshell

Task	D 1	D 2	D 3	D4	D 5	D6	D 7	D8	D 9	D 1 0	D1 1	D1 2	D1 3	D 1 4	D1 5	D 1 6	D 1 7	D 18	D 19	D2 0	D21
Sourcing from Existing Database	Send IVRS & SMS				Personal Calls																
Sourcing from 3rd Party Agency	Sourcing, identifying and filling the gaps																				
Sourcing DPP	Monitor Screening and post JD				College visits, Newspaper inserts				High footfall areas, coaching centres												
Screening	Screening, communicate GD/PI Venue, date&time
