Pulse of Grama Volunteers

A broad study conducted to assess understanding, gauge satisfaction, and collect feedback from Grama Volunteers across the state to comprehend the overall perception on the system and the political happenings in the state.

No. of VS/WS visits: 12353

Total responses from Volunteers: 146111

<i>Grama Volunteers/Ward Volunteers</i>	Rural	Urban
Responses	72%	28%
Average no. of houses allotted	59	62

I. Household Mapping

Questions asked during training	% Yes
Volunteers houses are included in the houses allotted to them	55%
Houses allotted are same as shown in the App	74%
Issues in House allocation	8%

Focus Areas:

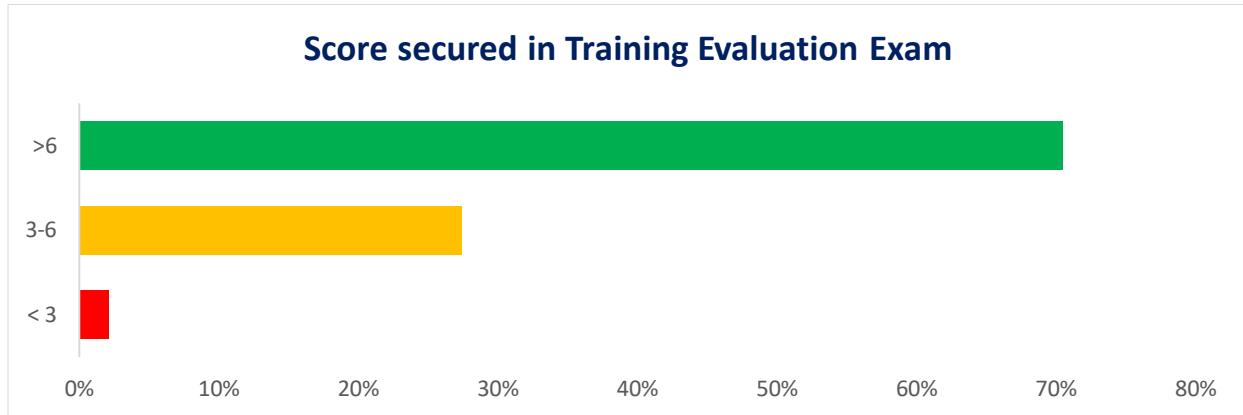

- 57% of the Volunteers in East Godavari district, highest among all other districts, stated that their houses are not included in the cluster allotted to them.
- 36% of Volunteers from Kurnool district said that Houses allotted to them are not same as the ones shown in the App
- Srikakulam district has highest number of Volunteers (14%) having issues in house allocation with major reasons quoted as mismatch of revenue house mapping with volunteer app mapping, allocation of distant clusters to volunteers, more no. of houses being mapped to volunteers etc.,

II. Evaluation based on Roles and Responsibilities Training

Drawing insights from the previous pulse survey, Grama Volunteers across the state were trained on Roles and Responsibilities by FOA in the month of August. Detailed explanatory video was created as a guide to ease the understanding and better retention. An evaluation test with 8 questions was conducted to assess the impact of the training.

No. of Trainings conducted: 12353

Question	% Yes
Are you well aware of your roles & responsibilities as a Volunteer?	99.8%
Did MLO efficiently train the Roles & Responsibilities of Volunteer?	99.6%
Did you watch the video explaining the roles & responsibilities of Volunteer?	98.8%
Did MLO answer all your queries in the training process?	99.4%

Focus Areas:

- 49% of the Volunteers across the state got the perfect score in the Evaluation exam with Vizianagaram district topping the list with 63% of the Volunteers scoring 8/8.
- 2% of the all the Volunteers who took the test and scored less than 3, are being specially contacted by the MLO to ensure the training objective is met .

III. General Insights

- Volunteers are expecting government to be more considerate and helpful in these stressful times. They want government to provide them with more COVID-19 protective equipment like masks, gloves and sanitizers.
- They are also expecting government to find temporary way other than compulsory E-KYC to deliver services. By being involved in E-KYC process they have more chances of being infected by COVID-19.
- Volunteers are complaining regarding Bio-metric attendance process in this COVID-19 situation, as they might get infected from the volunteers who tested positive because of their thumb prints.
- Introduction of new service requests in the VS/WS is adding work pressure on Volunteers as they were already requested to perform additional tasks like reaching serving request targets in apartments, procuring of electricity bills, etc.,
- A few Volunteers were also given tasks of mobilizing HHs to take Corona tests while HHs are refusing to take the tests in fear of getting infected while in contact with other people who might have COVID-19, at the test center.
- The targets to identify beneficiaries for the schemes are set too high (more beneficiaries in less time) for the Volunteers which is causing them to work inefficiently and causing dissatisfaction in HHs. They are requesting to allot required amount of time at the beginning itself instead of allotting a tight schedule at the beginning and extending it later.
- Caste certificates are being rejected at MRO office when applied from Secretariats and are approved if applied from mee seva centers.
