But, afterwards it's still showing that E-KYC been pending. Many volunteers has complained that for each person they have to take at least 3/4 times of biometric. Might be it's all because of server (Not capturing the data for all the time) 2. While applying E-KYC for below 5 years, we have a option called declaration/Nominee (Nothing but a parent). After taking up the parent biometric instead of child, there it showing completed but afterwards not getting any of the child's data.
